

Choice Water - helping the community

being fit &
healthy is...

Choice

Choice

Choice Australia Management Ltd (referred to as Choice) is a non profit organization that was founded in 1997. Choice develops strategies that increase the well being of individuals and communities.

The Choice Water Project provides an opportunity for individuals, local business, private enterprise, corporate Australians and government departments to contribute to the funding Choice generates to help create safer, more skilled, happy and healthier communities.

Proceeds from sales of Choice Water will increase Choice's capacities and service deliveries in the fields of community development, social justice, employment & training and crime preventions, emphasising, 'people working together to benefit others'.
